Evaporative Control Systems Inc. Product warranties

ECS provides an unconditional warranty for all new delivered products to be free of defects in material and workmanship. Defective products should be isolated and returned to the providing distributor for replacement in kind, refund or credit. Warranty is limited to manufacturing defects and does not apply to damage caused by on site storage, delivery handling or unloading practices, or damages incurred during installation.

ECS provided pans, grommets, liners and chambers when properly installed are warranted not to decompose or collapse for a period of 10 years under normal sporting activities or procedures incurred during athletic field maintenance – mowing, aeration, addition of fertilization chemicals. Vehicular use on field with tire pressures in excess of 35 psi may void warranty. Warranty does not include damage due to natural disasters such as earthquakes, abuse, mismanagement, vandalism, staking, or use of aeration tines longer than 4”.

ECS control valves, pumps and switches are warranted to operate as designed for a period of 5 years after installation. Defective or inoperable control valves should be returned to the providing distributor for replacement in kind or substituted with an updated version. Warranty does not apply to damage caused by abuse, vandalism or accidents.

ECS electronic transformer parts and timers are provided with an operational warranty of one year, for normal use. Defective or inoperable transformers should be returned to the providing distributor for replacement in kind or substituted with an updated version.

ECS does not warrant growth, quality, condition or durability of turf, grass seed, plants that are planted or placed on top of the ECS system. (To obtain successful turf growth, it is suggested to follow the general maintenance guidelines provided by ECS.)
